

FOR CLASSES IX, X AND XII

Unit Tests (for the Mid-Term Examinations) will be held in a few subjects for Classes IX, X and XII from June 30 to July 15, 2025. Students will be informed about the syllabuses for the Unit Tests, in class.

A second round of Unit Tests will be held later in July-August.

FOR CLASS XI

Class Tests in English Language and all elective subjects (except Art) will be held from July 1 to July 16, 2025. The schedule for these tests and the syllabuses for subjects will be shared with the students in class.

These tests will help to serve as indicators of the students' aptitude and proficiency in the subjects they have chosen. Any alteration in the combination of subjects can be made before their Registration for ISC 2027 is completed.

Date : 25.06.2025

FOR CLASSES I - IV

Parents have been informed in the meeting held earlier this year, that there shall be no examinations for Classes I – IV throughout the academic session 2025-2026.

The various competencies of the children will be assessed continuously through classwork, project work and class activities. We shall be sharing our observations about every child periodically with parents throughout the session. Regularity in attendance and preparation of lessons will be important in order to facilitate the child's performance at school.

It is to be noted that these assessments will focus on skills like comprehension / creativity / writing / communication / reasoning and not just on knowledge acquired through rote-learning.

Such changes are mandated by NEP 2020.

FOR CLASSES V – VIII

Parents have been informed in the meeting held earlier this year, that Continuous Assessments for Classes V – VIII will be made across most subjects throughout the academic session 2025-2026. The Mid-term and Final Examinations will be held as usual.

The various competencies of the children will be assessed continuously through classwork, project work and class activities. We shall be sharing our observations about every child periodically with parents throughout the session. Regularity in attendance and preparation of lessons will be important in order to facilitate the child's performance at school.

It is to be noted that these assessments will focus on skills like comprehension / creativity / writing / communication / reasoning and not just on knowledge acquired through rote-learning.

Such changes are mandated by NEP 2020.
